Summary

Recent graduate with a Bachelor's degree in Information Systems from Minia University (2022). Completed multiple projects using the MERN stack and currently specializing in Java web development with Spring Boot. Dedicated to solving problems and delivering efficient solutions.

Education

Bachelor's Degree in Information System, specializing in Software Engineering and developing – Faculty of computers and information-Minia University.
Grade: C+
2018 – 2022

Professional Experience

1. **[Art Corner - Art Gallery Web Application]**
   - Developed a full-stack application using MERN stack.
   - Developed a dynamic and responsive web application for showcasing and managing art pieces.
   - Utilized the MERN stack: MongoDB for database management, Express.js for server-side logic, React.js for building the front-end, and Node.js for backend development.
2. **[Holy Quran - E-Quran website in React.js]**
   - Developed a Quran reading web application using React.js.
   - Integrating Alquran-cloud API to display random verses and allow users to select specific surahs.
   - Focused on efficient front-end development with React, ensuring smooth user experience across both desktop and mobile platforms.
3. **[Patients – MVC spring boot server]**
   - Developed a RESTful web server for managing patient data using Spring Boot.
   - Implementing the MVC architecture. Created efficient backend logic for data handling and API interactions.
   - Ensuring scalability and maintainability

Technical Skills

- **Programming Languages:** [Java, JavaScript, C++]
- **Web Development**: [Spring Boot, React.js, Express.js, Html, Css, bootstrap, redux.js]
- **Database Management:** [MongoDB, SQL]
- **Other Skills:** [Problem Solving, Git, GitHub, Agile Methodologies]
